

Nothing old-fangled apart from this font!

A newfangled day starts like any other, with a huge serve of battery hen eggs - cos' there's nothing more newfangled than an electric chicken!

Then, the real newfangled day starts! Usually with some debugging...

...improving accessibility

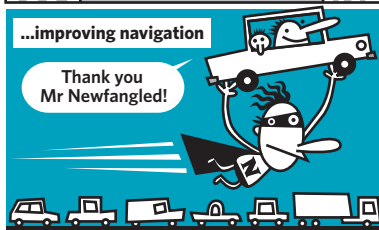

...stopping people from making stupid security decisions...

...making sure that sites that are easy for search engines to find

...improving navigation

...making your website work harder

Finally, a newfangled day ends with a bit of code...

NEWFANGLED

Newfangled are passionate website coders that build robust and easy-to-use websites and web applications.

We work alongside our clients to ensure they get the site they want. And, we also appreciate good design, and enjoy collaborating with designers.
